

Last Name \_\_\_\_\_

First Name \_\_\_\_\_

Welcome to AP Chemistry! I am looking forward to an exciting year. Attached you will find a list of my classroom rules, procedures, materials required, and grading policies. Please read these carefully, and then sign below. Return the signed form to me by Friday, Aug 13. If at any time you have a question or concern, don't hesitate to contact me at the school (989-5511). You may also contact me via email. My email address is TVGreen@aol.com.

As an added resource, most of my class information is posted on the Internet at

<http://www.tvgreen.com>.

There you will find the notes, homework assignments (including printable versions) and a calendar of assignments. I will also post student grades. I try to update this at least every week, so, if you have questions about homework or assignments, you can check it on line.

AP Chemistry is a college level course, so the level of effort required is significantly higher. In enrolling in the course you agreed to spend an hour a day outside of class in preparation for the class. The College Board also suggests that you spend a minimum of an hour a day on outside studies. It will take that kind of commitment to be successful in the course, and on the AP test on May 2, 2011.

Sincerely,

Mr. Green

I have read and understood the rules and grading policy, and agree to abide by them.
